## Memorandum

To: Lease File (Inspections) Navajo Allotted Leases  
NOO-C-14-20-5681, -8396, TEDCO

From: Environmental Scientist, Albuquerque District Mining Office

Subject: Addendum to Inspection Records (IR) dated March 31, 1983

The subject IR's stated that no new drilling could be found and that TEDCO would be contacted. I was finally able to reach Mr. Toren Olsen, Geologist with TEDCO, and he confirmed that no new drilling had taken place at the time of my inspection. Poor weather conditions postponed TEDCO's 1983 drilling until the week of March 28, 1983. The drilling has been completed and Mr. Olsen is plotting the holes on new maps.

When I receive the maps I will make an inspection.

  
John M. Andrews, Jr.
